

Documentation and formalities when retracted

homework helper geometry

As long-term practice shows, teachers at all times are indifferent to potential soldiers. Therefore, it is not necessary to naively believe that before crossing the exam, the verifier will personally go to the dean and take a new statement specifically for the two-year student. This will not be, but it is definitely known that in the absence of a typical document on the repeated examination, the beginning of the relief will be not the most favorable.

That is why it is so important to be "in all weapons", so that the examiner simply did not have to complain about. However, the snag may occur with the secretary in the deante, which also occurs the attacks of poor mood.

That is why it is important to arrange without any problems, it is important to choose time and place, and most importantly - to be with him in good relationships. That's where community will need! So, the main task of the student is to get a clean form of the examination sheet from the secretary, as well as a sheet, where the entire group completed with the examination marks. What is it necessary for?

The fact is that the teacher because of your unpreparedness and, accordingly, unsatisfactory assessment will have to rewrite all the results of the group exam in the new form. What for? It's no secret that any corrections and blots are unacceptable. So the victims of the examiner will add, and the mood in connection with this will drop; Therefore, it is necessary to prepare for the "hot conversation" with the addiction, so to speak.

5 ways to solve problems

As a rule, all teachers are not particularly complaining of students who came to renob the exam, as clearly convinced that "all their time". It is also not like to mess around with the documentation, therefore it remains one thing - to hit the specialist with its deep knowledge in the subject thing so that it does not consider that in the evening in vain spent his precious time on the organization and carrying out.

So with an exam sheet, a clean forms and full luggage of knowledge, you can safely go on crisp, while keeping confidently, giving it to understand that this time your answer will amaze even the most intense skeptics.

How to prepare for the relocation of the exam?

In my student years, I understood the simple truth that it was necessary to prepare for the exam either throughout the semester, diligently visiting the lecture, or a couple of days before the pass, when the head and consciousness were tuned only to win. Of course, all students, and I, including,

choose the second option, as learning every day due to adult life just did not remain.

Get ready-to-negative

So in the case of crossed, it is advisable to start in a couple of days, and the first day it is desirable to devote to the development of a new material, and the second day - its consolidation and outline of particularly difficult topics or sections.

But still, what are the rules of successful training?

First, mastering the material must be sequentially, since the new topic contains a portion of the material already passed. Accordingly, knowledge is better to receive, gradually accumulating them from the read pages. If you prepare excerpts from different topics, then the "polyglot" is also doomed to another failure.

Secondly, it is advisable to consult knowledge by re-connection of already solved examples. This will allow you to apply the theory in practice, and also stroke some important rules, formulas and definitions in the brain. In addition, in case of certain difficulties, you can always look at the ready-made solution in order to visually remember the sequence of the junction.

Thirdly, all rules and definitions are recommended to be reproduced in an arbitrary form with a clear awareness of the above, since the learned theses and quotes are usually abandoned. The teacher requires the awareness and sequence of presentation, and not prose learned by heart; Since such knowledge cannot be used in practice.

Fourth, before crushing it is extremely important not to disturb your usual routine, that is, not to lose a healthy appetite, as well as not to lose sleep and peace. Full nutrition provides the required energy and brain activity required to relocate, and the full sleep and the feeling of recreation retain strength and attentiveness during the exam.

How to get rid of excitement before the exam?

Fifth, during re-passing it is necessary to make a smart appearance and in no case are not silent, because at such moments the inspection may simply be asked the next question. It is best to make a lively dialogue with the teacher who will help not only brighten up a short minute of silence, but it will open to the correct answer.

And last: if the teacher puts the mark "satisfactory," should not be interrupted, proving that your knowledge is at least pulling on solid "well." Retreat is not a place to bid, because one incorrect word and can be inserted into the ranks of the recruits who are destined to give the debt to the birthplace. Here, this is not about receiving scholarships, but about further studies in the higher educational institution.
